FOREWORD

This manual contains procedures for diagnosis, maintenance adjustments, service operations, replacement of components (Service) and for disassembly and assembly of major components.

The contents of this manual are classified into sections as listed in the TABLE OF CONTENTS on the next page. And on the first page of some individual sections listed are the contents of that particular section.

If there is no such list, be sure to follow the description of NOTICE on that page which provides instruction to refer to the corresponding section of the other SERVICE MANUAL (ALTO 99500-84000-01E).

Also, note that use of SERVICE DATA MANUAL (99510-84301-01E) along with this manual is serviceable to your activities.

When replacing parts or servicing by disassembling, it is recommended to use SUZUKI genuine parts, tools and service materials (lubricants, sealants, etc.) as specified in each description.

All information, illustrations and specifications contained in this literature are based on the latest product information available at the time of publication approval. The right is reserved to make changes at any time without notice. And used as the main subject of description is the vehicle of standard specifications among others. Therefore, note that illustrations and photos may differ from the vehicle being actually serviced.

IMPORTANT:

It is important to note that, during any vehicle maintenance procedures, replacement fasteners must have the same measurements as those removed.

Mismatched or incorrect fasteners can result in vehicle damage or malfunction, or possible personal injury.

Therefore, fasteners removed from the vehicle should be saved for re-use whenever possible.

Where the fasteners are not satisfactory for re-use, care should be taken to select a replacement that matches the original.

Additional information concerning this subject will be found in the section 0 (METRIC INFORMATION).
